MONTANA ARCHERY IN THE SCHOOLS PROGRAM EQUIPMENT ASSISTANCE APPLICATION

The National Archery in the Schools Program (NASP) is designed to promote international archery-style target shooting during physical education classes in grades 4-12. Montana Fish Wildlife & Parks believes that students involved in a target archery program will learn a life long skill, increase their self-esteem, and increase physical activity. In Montana, FWP is the sponsoring organization for NASP.

Periodically thanks to the Easton Foundation along with support from NASP equipment vendors (Mathews, Easton, Morrell, Rinehart, Field Logic, Bowtree, Hold Up Display, Archery Shooter Systems, BCY, & Lancaster there are equipment grants available to the states to distribute to schools to assist with implementation of NASP. These grants are for new NASP schools who order a complete set of equipment – can receive a \$1,000 discount for off the cost of a complete kit. If you are a current NASP school and need replacement equipment for – then you may be eligible to receive up to a 25% discount for orders up to at least \$800. You must go through FWP prior to ordering from NASP. Not doing so will make your request ineligible.

A standard NASP start up archery kit includes: 12 Genesis bows, 5 targets, 5dozen arrows, and an arrow curtain. The approximate cost is \$3,500. To obtain an equipment order form please go to the national website at <http://naspschools.org/ordering/>

To receive an equipment grant the school must contact FWP and receive approval prior to ordering the equipment from NASP.

For a school to be eligible to obtain a kit there must be at least one instructor who has successfully completed the NASP Basic Archery Instructor (BAI) workshop. For the next available training contact FWP.

Sincerely,

Kurt Cunningham

MT NASP Coordinator
